

Production Technology

Quality Solutions for Electronic Assembly

Line Card
5/19/21

Rework and Repair

Air-Vac

SMT attachment and rework equipment for QFPs, BGAs, Micro BGAs, CSPs, Flip Chips, SOs, PLCCs and connectors. Also semiconductor, Photonics, Micro Assembly, Component packaging, Kitting and sorting, Robotic die attach and microelectronics dispensing.

Conveyors

Flexlink

PCB Conveyors, peripherals and workstations.

Flying Probe and Automated Test Equipment

Digitaltest Equipment

Digitaltest develops and manufactures automated and Flying Probe test equipment for electronic printed circuit boards including software for production automation and quality management systems.

Ultrasonic Flux and Spray Systems

Sono-Tek Corporation

Sono-Tek Corporation is the world leader in ultrasonic spray systems for wave solder and selective solder machines. It provides very low maintenance and non-clogging systems for easy integration with all major wavesolder and selective solder machines.

Automated Soldering

MTA Automation

MTA Automation is a worldwide leader in the field of automated soldering. MTA'S platforms range from manual stations to semi-automatic tabletop robots and fully automated assembly lines.

Production Technology

**Aqueous Cleaning and
Wave Soldering**

Technical Devices

**Wave soldering, aqueous cleaning machines (both batch and inline),
including DI systems options.**
